

## 2008 Post Falls Reverse Job Fair April 30, 2008

Approximately 130 high school students from Post Falls and Lakeland School Districts participated in the 2<sup>nd</sup> Annual Post Falls Reverse Job Fair. As a senior project, each student made a poster, assembled a portfolio, and dressed for their career goal. Business professionals from the community came to interview them and evaluate their dress, communication skills, poster, and portfolio.

This gave the students the opportunity to show off accomplishments and talents as they asked questions about their choice careers.

The event was held in the foyer of Kimball Office. Students practiced their

interviewing skills and gained insight into their area of interest. Many of the seniors have job shadowed and were able to bring examples of their work.

**Roger Madsen met with a number of students**

The students' maturity and positive attitude impressed the 140 event organizers and business professionals. A variety of occupations were chosen included health care, law enforcement, automotive, business, teaching, the arts, and many more.

\$3000.00 worth of scholarship money was awarded to the top students, one of which was a Coeur d'Alene Department of Labor WIA recipient, Moriah Pellerin, who won a \$500 scholarship for her nursing training at North Idaho College. It was a great ending to a very exciting day.

**20 students were finalists for scholarships.**
